

ADISN
FAUCET & SINK

A Little Jewel For
Your **Bathroom**

INNOVATIVE DESIGN
FOR EXCEPTIONAL WATER FLOW

CATALOGUE
2024-2025

In a rapidly evolving world of architectural hardware, the rising star brand ADISN Faucet & Sink has well established itself thanks to its impeccable quality and unequivocal design. An ensemble of high calibre aesthetic that comes preloaded with TOP NOTCH quality is an irresistible reason for discerning consumer touch brand - ADISN Faucet & Sink

MANUFACTURING PROCESS

CASTING

ADISN Faucet currently still a raw and inconspicuous brass (HONI BRASS) bar, the raw material melt in the furnace at over 1000 degree centigrade, the liquids metal now takes on a recognizable form, All these were done by ITALY origin casting machine

MACHINING

The faucet goes to machining process. The computer controlled process. Our cutting-edge machine and experienced workers ensure the gravity casting has all its surface finished to a high degree of smoothness

POLISHING

The faucet entered in polishing stage: The rough casting is polished by hand to ensure that the surface has an impressive shine, all edge and surface are polished manually. automatic polishing machine is also used for quality improvement.

PLATING

The brass faucet are placed in an electrolytic immersion bath. In one of the most modern plating system, the faucet receive a brilliantly shiny chrome layer that ensure long lasting durability. In the bathes in several electrolytic bath up to an hour.

ASSEMBLING

After all the process faucet finally becomes assembling stage. A single swing faucet comprises many individual components. The final assembly, the specialized worker assemble all parts together. No products leave the factory without quality checked and finally packed in boxes and make seal.
